Dear Mr. Jandali,

This is an unsolicited testimonial to the skills and talent of my professional Business Broker, Malek Jandali. While Malek obviously has the experience, intelligence, patience and tact that admirably suit him for his work, I want to address another quality, his integrity. There was a trust established early on between Malek and the buyers which I think greatly simplified the negotiating process and allayed a great deal of the suspicion that might have been there otherwise. I think that it is very significant that after the completion of the sale both the seller and the buyers hold Malek in high esteem and regard him with much fondness.

We enjoyed working with the entire team at VR Business Brokers Atlanta and would recommend them to anyone.

Thank you very much.
